2018-2019 Programs
This directory is provided as a member service by the Pharmacy Society of Wisconsin
Residency Organizational Structure

PGY1, or postgraduate year 1, will designate the first year of residency training. PGY2, or postgraduate year 2, will designate the second year of residency training. PGY1 residencies build upon the educational foundation provided through completion of an accredited Doctor of Pharmacy degree program. Completion of a PGY1 residency usually serves as the prerequisite for postgraduate year two (PGY2) residencies and fellowships.

PGY1 programs must train residents to be competent at:
1. Patient Care
2. Advancing Practice and Improving Patient Care
3. Leadership and Management
4. Teaching, Education, and Dissemination of Knowledge

Residents in a PGY1 residency program are provided the opportunity to accelerate their growth beyond entry-level professional competence in patient-centered care and in pharmacy operational services, and to further the development of leadership skills that can be applied in any position and in any practice setting. PGY1 residents acquire substantial knowledge required for skillful problem solving, refine their problem-solving strategies, strengthen their professional values and attitudes, and advance the growth of their clinical judgment.

Residents in a PGY2 residency program are provided the opportunity to expand on knowledge gained from previous experience. PGY2 residents are able to take the knowledge gained from either pharmaceutical practice experience or from their PGY1 residency and focus it towards a particular area of interest.

RESIDENCY PROGRAM
Duration: 12 months
Number of positions: 2
Application Deadline: January 16
Starting Date: June 26
Estimated Stipend: $46,000

SPECIAL FEATURES
The PGY-1 Pharmacy Residency Program at Saint Clare’s Hospital is a 12-month program that is carefully designed following the American Society of Health-System Pharmacists’ Accreditation Standards to ensure that a resident develops into a well-rounded, clinical practitioner through exposure to a large variety of practice areas. Upon completion of this PGY-1 program, the resident will be a competent clinical pharmacist with the necessary professional knowledge and abilities to pursue a general clinical pharmacist position, board certification, and/or a post-graduate year two (PGY-2) pharmacy residency position.

The pharmacy department at Saint Clare’s Hospital provides 24-hour services to all patient care areas. Pharmacists work in a decentralized model on various units including the intensive care unit, medical/surgical unit, and progressive care unit. Pharmacists participate in multidisciplinary rounds and readmission reduction efforts, provide clinical dosing and monitoring services and precept introductory and advanced pharmacy practice students. Our pharmacists provide high quality patient care with assistance from skilled pharmacy technicians and extensive forms of technology.

The resident is required to complete orientation, five core rotations (internal medicine, infectious diseases, cardiology, critical care, and ambulatory care), four longitudinal rotations (practice management, medication safety, formulary management, and operational pharmacy practice), and three elective rotations (information technology, outpatient oncology, outpatient anticoagulation, nutritional support, or critical access hospital). Each experience will be tailored to the resident’s abilities and interests.

FRINGE BENEFITS
Health and dental insurance, generous paid time off, travel allowance to Midyear meeting and Great Lakes Conference, free parking.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduation from an accredited school of pharmacy, eligible for Wisconsin licensure and on-site interview. Must submit all application materials to PHORCAS including: letter of intent, curriculum vitae, academic transcripts and three letters of recommendation.

TRAINING SITE FEATURES
Ascension Wisconsin (formerly Ministry Health Care) has a long history of serving Wisconsin as evident by 24 hospitals and 100+ physician clinics throughout Wisconsin offering a full range of medical services. Serving as a regional hub, Saint Clare’s Hospital in Weston (just minutes from Wausau on Highway 29) is a 110-bed acute care hospital providing a broad range of primary and specialty healthcare services including emergency, general medical surgical, critical care, and obstetrical services.

Saint Clare’s hospital is completely chartless with all patient data instantly updated in an Electronic Medical Records system. This ensures a level of seamless care, safety and accuracy.

The staff at Saint Clare’s is an extraordinary team of experienced and compassionate caregivers. They define a culture at Saint Clare’s that is wholly focused on delivering excellent patient care, which includes delivering the comfort of all the most modern patient amenities. With all the advantages of a modern facility and a proven system of care, Saint Clare’s Hospital offers patients the best of both worlds. It truly is a 21st century hospital, built on a century of care.

RESIDENCY PROGRAM
Duration: 12 months
Number of positions: 2
Application Deadline: January 9
Starting Date: June 26
Estimated Stipend: $46,000

SPECIAL FEATURES
Residents will be exposed to a wide variety of pharmacy practice areas through this carefully designed program. Required rotations are: Practice Management, Medication Safety, Internal Medicine, Infectious Disease, Cardiology, Critical Care, Anticoagulation, and Nutrition. Elective opportunities are Emergency Medicine, Psychiatry, Women and Families/NICU, and Informatics. Resident will have teaching opportunities with students in both introductory and advanced pharmacy practice experiences and will participate in career fairs. Resident will present at the Midyear meeting and Great Lakes Conference.

FRINGE BENEFITS
Health and dental insurance, generous paid time off, travel allowance to Midyear meeting and Great Lakes Conference, free parking.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduation from an accredited school of pharmacy, eligible for Wisconsin licensure and on-site interview. Must submit all application materials to PHORCAS including: letter of intent, curriculum vitae, academic transcripts and three letters of recommendation.

TRAINING SITE FEATURES
For more than 100 years, St. Elizabeth Hospital has been a leader in providing quality health care to Fox Valley residents, especially the
medically underserved. The hospital meets a broad variety of patient needs through general care, surgical services, and numerous medical specialties including cardiology, oncology, pediatrics, emergency, intensive care and obstetrics. With 332 licensed patient beds and more than 420 skilled medical staff, St. Elizabeth Hospital offers complete, compassionate, quality healthcare for the entire family.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 2
Application Deadline: January 5
Starting Date: See Program Director
Estimated Stipend: $47,840

SPECIAL FEATURES
This residency provides an opportunity to practice at both the Aurora St. Luke’s Medical Center and the Aurora Sinai Medical Center Outpatient pharmacies. Residents will concentrate on enhancing existing services and implementing new pharmacy-based medication therapy management programs. Patient care services include comprehensive medication reviews, immunizations, a discharge prescription delivery service, transplant medication refill service, and community outreach events. Residents will also have opportunities to complete longitudinal ambulatory care learning experiences in primary care and anticoagulation clinics, providing disease state management through collaborative practice agreements and medication management services. Coordination of patient care between the pharmacy and clinics will be emphasized. Residents will also gain experience in practice management and professional/leadership skills development. There is the opportunity to precept students and provide ACPE educational programs. The experience is customized to each resident.

FRINGE BENEFITS
Full-time employee benefits including medical/dental insurance, paid time off, and support for educational meetings.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 4
Application Deadline: January 1
Starting Date: July 1
Estimated Stipend: $42,620
Interview Required: Yes

SPECIAL FEATURES
The Clement J. Zablocki VA Medical Center PGY1 residency program prepares residents for all aspects of pharmacy practice. The program offers a good balance of inpatient and ambulatory care experiences and is highly customized for each resident as an individual. Required rotations include internal medicine, cardiology, intensive care, infectious diseases, oncology, and ambulatory care. A variety of electives are available including congestive heart failure clinic, spinal cord injury, endocrinology, mental health, nutrition, precepting, geriatrics and more. The lengths of rotations are customized to meet the future career goals of the resident. The flexibility of the ZVAMC PGY1 caters to the individual while still giving the resident the benefit of working with a team of residents and colleagues. Residents have extensive involvement with pharmacy students from University of Wisconsin and receive an additional stipend from the UW School of Pharmacy for this service. In addition, residents work extensively with students from a variety of learning institutions. Residents also have the ability to complete teaching certificate programs. Longitudinal responsibilities include attending weekly geriatric interdisciplinary rounds, evaluating non-formulary requests, student coordination activities and anticoagulation monitoring. VA residents obtain prescriptive authority after training is completed. Each resident is assigned a mentor that will follow their progress over the course of the year. In addition, the year-long residency project is a requirement of all residents with at least one mentor assigned for the project process.

FRINGE BENEFITS
Competitive salary, Medical/Dental insurance, 10 Federal holidays, 10 vacation days, Paid time off for Medical/Dental appointments, Tuition and travel support for professional conferences, Free parking, Office space, Opportunity to work for pharmacist wage on off-duty time.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Applicants must be an U.S. citizen (a requirement to be employed by Department of Veterans Affairs) and have Pharm.D. degree. Applicants must register and participate in the ASHP Residency Matching Program and submit applications via Phorcas. Please visit website for application requirements.

TRAINING SITE FEATURES
The Milwaukee VA Medical Center is a teaching institution with residents, interns, and medical students from the Medical College of Wisconsin. The Milwaukee Pharmacy is also an established teaching center for the University of Wisconsin-Madison School of Pharmacy, Concordia University Wisconsin, Medical College of Wisconsin, Midwestern University, St. Louis College of Pharmacy, Drake University, and various other Schools of Pharmacy.

RESIDENCY PROGRAM
Duration: 12 months
Number of Sites: 2
Application Deadline: January 4, 2018
Starting Date: June 25, 2018
Estimated Stipend: $45,000

SPECIAL FEATURES
While residents complete patient care activities at their specific practice sites, residents build collegiality through joint professional development sessions, teaching in the school of pharmacy, professional meeting attendance, and participation in citywide residency conference. All residents complete a research project and attend at least one national pharmacy conference during the residency year. Graduates will be capable of developing, providing, advancing and teaching patient care in community-based settings and fulfilling teaching, practice, research and service roles as a pharmacy practice faculty member.

FRINGE BENEFITS
The resident receives health insurance, travel stipend, paid holidays, and 10 vacation days.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of an accredited school of pharmacy, eligible for WI licensure. Application materials include a cover letter, CV, School of Pharmacy Transcript, and three reference letters, all submitted via PhORCAS.

TRAINING SITE FEATURES
This residency prepares pharmacists for generalist ambulatory practice in urban underserved areas and roles in teaching. There are two practice site options for this residency. Option 1 is Evergreen Pharmacy, an independent pharmacy. The site offers opportunities to gain knowledge on specialized disease states, research the pharmaceutical pipeline and innovate the way community pharmacy is practiced. Option 2 is Hayat Pharmacy, an independent community pharmacy with over 10 locations. Hayat Pharmacy is focused on patient adherence, in-person medication therapy management (one-on-one medication education with a pharmacist) and medication synchronization through our Simplify My Meds program. With either option, the majority of time will be spent in direct patient care in the pharmacy with time once weekly at Concordia University Wisconsin in teaching and learning activities that will foster academic development. A half day each week will be allocated for administrative projects in the pharmacy.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 5
Starting Date: End of June
Estimated Stipend: $48,000

SPECIAL FEATURES
The Fort HealthCare PGY-1 residency program is a joint program between Fort HealthCare, a rural hospital and healthcare system, and UW Health, a tertiary academic teaching hospital and healthcare system. Throughout the residency year, residents will complete a total of 9 months at Fort HealthCare and 3 months at UW Health (interspersed throughout the year). While at Fort HealthCare, residents will complete a comprehensive residency experience through rotations including General Medicine, Emergency Medicine, Management, Population Health, and Ambulatory Care. While at UW Health, residents will choose from many elective rotation options including: Cardiology, Critical Care, Infectious Diseases, Investigational Drugs, Neurology, Nutrition Support, Oncology, Operating Room, Pediatrics, Psychiatry, Sterile Products, Transplant, and Trauma Surgery. A teaching certificate program is also offered and encouraged through UW School of Pharmacy.

FRINGE BENEFITS
Health/vision/dental insurance, 16 days paid time off, bereavement leave, 401(K) program, professional liability insurance, life insurance, employee assistance program, wellness incentive program.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Letter of intent, curriculum vitae, three letters of recommendation, college of pharmacy transcripts, eligibility for Wisconsin licensure, and a PharmD degree.

TRAINING SITE FEATURES
Fort HealthCare provides quality healthcare to the residents of an eight-community area, and has the only hospital in Jefferson County. The hospital is a modern, fully accredited, acute care facility with 82 beds. In addition to comprehensive inpatient services, Fort HealthCare offers ambulatory surgery and specialty clinics, a birthing center, cardiac rehabilitation, emergency services, occupational medicine, and more. Fort HealthCare is a progressive rural community health system focused on a healthier tomorrow. With the vision to “Be the Healthiest Community in Wisconsin”, our providers and staff are involved throughout the area communities year round to make a difference. Since enacting this vision, Jefferson County Overall Health Outcomes improved from 33rd in 2012 to 8th in 2016.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 3
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $46,800

SPECIAL FEATURES
Flexible, comprehensive training in a variety of ambulatory care areas. Required rotations/experiences include ambulatory pharmacy administration, anemia clinic, anticoagulation clinic, cardiology clinic, community and specialty pharmacy (staffing), medication safety, medication utilization, medication therapy management, and transitions of care clinic. Elective rotations/experiences may include academia, cardiology clinic, emergency medicine, endocrine clinic, GI/hepatology clinic, hematology/oncology clinic, HIV/infectious disease clinic, internal medicine clinic, investigational drug service, metabolic syndrome clinic, patient-centered medical home, geriatrics, transitions of care clinic, pulmonary & smoking cessation clinic, rheumatology clinic, solid organ transplant clinic, and others according to the interests of the resident. Opportunities exist to work with and serve as a preceptor and mentor for pharmacy interns and students, as well as the opportunity to participate in a teaching certificate program.

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowances.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital, the largest facility in the Froedtert & the Medical College of Wisconsin System, is a 536 bed academic medical center and Level 1 trauma center located on the Milwaukee Regional Medical Center Campus, which encompasses the Medical College of Wisconsin and Children’s Hospital of Wisconsin. Within the campus are five retail pharmacies, including specialty pharmacies dedicated to serving the Clinical Cancer Center and the Center for Advanced Care. The community pharmacies provide a variety of services, including patient counseling, med synchronization, home delivery, medication therapy management, and more. Pharmacists in the anticoagulation clinic manage over twelve hundred patients per year. In addition, ambulatory clinic pharmacists provide specialized patient education and medication monitoring while collaborating with health care team members to provide excellent medication management services.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 11
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $46,800

SPECIAL FEATURES
This well-established residency program provides flexible, comprehensive training in a variety of areas. Required rotations include drug policy, internal medicine, pharmacy administration (choose from clinical, operations, ambulatory, medication safety, residency program management, or informatics), critical care (chose from medical, surgical/truma, neurosurgical, or cardiovascular) and clinical practice (integrated throughout the year). Elective rotations include emergency medicine, infectious disease, oncology, solid organ transplant, cardiology, diabetes management, academia, ambulatory care, and several other options. Rotations and activities are tailored to meet the needs and interests of each resident. Opportunities exist to earn a teaching certificate and to serve as a preceptor for pharmacy clerkship students.

FRINGE BENEFITS
Three weeks of paid time off; health, vision, dental, disability and life insurance; travel and meeting allowance

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Participation in PhORCAS (Pharmacy Online Residency Centralized Application). Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital is a 536-bed academic medical center and a leading referral resource for advanced medical care. Froedtert Hospital also operates the region’s only adult Level I Trauma Center. The primary adult teaching affiliate of the Medical College of Wisconsin, Froedtert Hospital is a major training facility for more than 1,000 medical, nursing and health technical students annually. It is also a respected research center, participating in some 2,000 research studies, including clinical trials, every year. Froedtert Hospital is located on the Milwaukee Regional Medical Center campus. Campus partners are: BloodCenter of Wisconsin, Children’s Hospital of Wisconsin, Curative Care Network, the Medical College of Wisconsin, and the Milwaukee County Behavioral Health Division. Froedtert Hospital is part of the Froedtert & MCW health care network, which also includes Community Memorial Hospital, Menomonee Falls; St. Joseph’s Hospital, West Bend; and more than 25 primary and specialty care health centers and clinics. All physicians who practice at Froedtert Hospital are Medical College of Wisconsin faculty who are dedicated to patient care, research and teaching. Our physicians are consistently honored by recognition in Best Doctors in America®, and other local and national publications. Patients benefit from a full range of medical and surgical specialties, ranging from internal medicine to neurosurgery. At Froedtert & MCW more than 37 different medical specialties work together as multi-disciplinary teams treating everything from the routine to the most difficult cases.

RESIDENCY PROGRAM
Duration: 12 months
Number of positions: 2
Application deadline: January 2
Starting date: July 2018
Estimated stipend: $46,800

SPECIAL FEATURES
This residency in a community hospital setting offers rotation experiences including cardiology, critical care, internal medicine, infectious disease, ambulatory care, leadership and pharmacy administration, emergency medicine, information technology, and academia. Medication safety, drug policy and acute care clinical practice are experiences that are integrated in the residency throughout the year. Residents also participate in activities across the Froedtert & the Medical College of Wisconsin System. Rotations and activities are tailored to meet the needs and interests of each resident. Opportunities exist to work with and serve as a preceptor for first and fourth year pharmacy clerkship students. Residents have the opportunity to present educational in-services for patient support groups, pharmacists, pharmacy interns, pharmacy technicians, nurses and medical staff. Pharmacy residents are involved in development of clinical programs, strategic initiatives, and projects to improve care delivery. Staffing is focused on decentral practice in areas post rotation.

FRINGE BENEFITS
Three weeks of paid time off; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Participation in PhORCAS (Pharmacy Online Residency Centralized Application). Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Community Memorial Hospital (CMH) is a 200 bed hospital located 20 miles northwest of Milwaukee in Menomonee Falls, Wisconsin. The hospital is part of the Froedtert & the Medical College of Wisconsin system which is comprised of Froedtert Hospital, St. Joseph’s West Bend Hospital, CMH, an Integrated Service Center and numerous clinics including the free standing Moorland Reserve Emergency Department. The pharmacy department provides comprehensive distributive and clinical services on a 24-hour basis and is live on the Epic electronic health record, CPOE, bar coded medication administration, smart pumps, carousel and automated dispensing cabinets. Pharmacists are decentralized in acute care areas including the emergency department. Services include collection of medication histories, medication reconciliation, bridging therapy, pharmacokinetics, drug therapy dosing and monitoring, medication education, and quality improvement activities. Ambulatory services include an Outpatient Pharmacy, Anticoagulation Service, Cancer Care Center and a pre-surgical center where pharmacists complete medication evaluations and make recommendations for bridging, smoking cessation and other perioperative medication management.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 5
Application Deadline: January 9
Starting Date: No later than July 1 (variable)
Estimated Stipend: $47,000

SPECIAL FEATURES
As members of an integrated health care team, Gundersen residents learn and adopt a practice philosophy that pharmacists are responsible for all aspects of medication utilization to achieve optimal drug therapy outcomes. Each resident’s experience will be customized based on interests, previous experience, and aptitude. Core rotations include critical care, internal medicine, cardiology, pediatric and neonatal care, antimicrobial stewardship-infectious disease, and practice management; additional opportunities include family medicine residency clinic, psychiatry, palliative care, nephrology, surgery, and anticoagulation management. Professional development opportunities include teaching pharmacy students on rotations and development and execution of a longitudinal research project.

FRINGE BENEFITS
Health insurance, dental plan, paid time off, budget allowance for education and professional development activities, availability.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Eligibility for Wisconsin licensure, curriculum vitae, college transcripts, on-site interview and three letters of recommendation. (application via PhORCAS)

TRAINING SITE FEATURES
Gundersen Lutheran Medical Center is a progressive, tertiary referral teaching center that is the central facility for Gundersen Health System, inclusive of 28 regional clinics of multispecialty practice and four affiliated hospitals in the tri-state (western Wisconsin, NE Iowa, SE Minnesota) area. The hospital and clinics serve as clinical training sites for medical, pharmacy, nursing, and other allied health profession students and residents, and serves as the western Wisconsin clinical campus for the University of Wisconsin. The pharmacy department provides comprehensive distributive service on a 24-hour basis, including parenteral admixture and support of automated dispensing units. Distributive service is complemented by clinical pharmacists and pharmacy technicians deployed to all inpatient units and select hospital-wide services. We utilize an integrated electronic health record and provider order entry (CPOE). Residents have the ability to live in dedicated, on-campus housing.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 2-8
Application Deadline: January 15
Starting Date: July
Estimated Stipend: $48,000

SPECIAL FEATURES
The Marshfield Clinic pharmacy system consists of a Clinical Pharmacy Services department, outpatient dispensing pharmacies, specialty pharmacy services, sterile products areas (e.g., oncology), investigational drug program, medication safety coordination, information systems integration, PGY1 Pharmacy residency, PGY2 Informatics Residency and PGY2 Medication Use Safety residency. Available rotations include cardiology, dermatology, drug information, internal medicine, neurology, oncology/hematology, outpatient pharmacy, clinical informatics, medication safety, medicine-pediatrics/pediatrics, pharmacy purchasing and supply chain management, and specialty pharmacy. Each resident’s rotation schedule is customized to meet his or her individual needs and interests. Longitudinal experiences: Resident research curriculum and research project, staffing, community service, management, leadership, committee involvement (e.g., patient safety, continuing pharmacy education), journal clubs, community activities, teaching, regional residency conference participation, all day Resident well-being retreat and Marshfield Clinic Medical Education Day participation. Marshfield Clinic has a dedicated resident research facilitator to aid medical and pharmacy residents in development of their longitudinal research projects. View the Marshfield Clinic Research website at: www.marshfieldclinic.org/research.

FRINGE BENEFITS
The resident receives health/dental insurance, sick leave, paid vacation/holiday, life insurance, 401 (K) plan, and professional travel reimbursement.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of accredited school of pharmacy, curriculum vitae, Marshfield Clinic application, official school of pharmacy college transcripts, three letters of recommendation, and eligibility for WI pharmacist licensure. Marshfield Clinic also participates in ASHP PhORCAS program.

TRAINING SITE FEATURES
Marshfield Clinic is a private, not-for-profit, multi-specialty physician group practice dedicated to serving patients through accessible, high quality health care, research, and education. Founded in 1916, Marshfield Clinic has become one of the largest fully integrated health care systems in the United States. Marshfield Clinic serves more than 380,000 unique patients annually at over 50 locations throughout Wisconsin. Marshfield Clinic is actively involved in the development, commercialization, and deployment of Clinical IT Solutions.

Julie.bartell@monroeclinic.org

RESIDENCY PROGRAM
Duration: 12 months
Number of positions: 3
Application Deadline: January 5
Starting Date: July 3
Estimated Stipend: $46,000 - $48,000

SPECIAL FEATURES
Monroe Clinic’s PGY1 residency with focus in ambulatory care offers diverse rotational experiences, with the resident working alongside physicians, nurse practitioners, physician assistants, and pharmacists. The residency’s primary goal is to prepare competent pharmacist clinicians, capable of any of the following: Independent practice in a clinic setting in collaboration with physicians; adjunct faculty positions; PGY2 training.

Required rotations include Pharmacotherapy Clinic (a pharmacist-run clinic that cares for patients with chronic diseases such as hypertension, hyperlipidemia, diabetes, heart failure, and patients on long-term anticoagulation), Medicine (a hospital experience), Primary Care, Medication Use & Drug Policy, and Pharmacotherapy Lab Teaching at the University of Wisconsin School of Pharmacy. Elective rotations include Pulmonology, Gastroenterology, Neurology, Nephrology, Oncology, Psychiatry, Primary Care with Focus in Geriatrics, and Community Pharmacy Practice – Outpatient Medication Management. Residents are encouraged to participate in a Teaching Certificate Program offered through the School of Pharmacy. This is an ASHP accredited program.

FRINGE BENEFITS
Health insurance, dental and vision plan, disability and life insurance, retirement plan, paid time off, travel allowance for meetings.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of an accredited school of pharmacy, eligibility for licensure in Wisconsin. Monroe Clinic participates in PhORCAS. To apply, please submit on PhORCAS a letter of intent, curriculum vitae, college transcripts and three letters of recommendation.

TRAINING SITE FEATURES
The Monroe Clinic and Hospital is a multi-specialty health care center, servicing patients from Southern Wisconsin and Illinois. Monroe Clinic has received LEED-Silver Certification for our new hospital that opened its doors in 2012. The 225,000 square-foot facility offers a nature-inspired design conducive to health and healing. With a 58-bed operating capacity, our hospital serves the medical, surgical, orthopedic, pediatric, intensive care, emergency and obstetrical needs of patients in our region.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: November 15th through January 1st
Starting Date: July 2018, flexible
Estimated Stipend: $45,000

SPECIAL FEATURES
This independent pharmacy ownership residency program will prepare graduates to be entrepreneurs and pharmacy owners in an evolving healthcare market. It will help residents obtain skills, confidence and experience to create viable business models for community pharmacy. This program is not accredited through the ASHP residency standards, however the UNC Eshelman School of Pharmacy will serve to ensure quality learning experiences offered by the residency sites.

As a fully integrated member of the team at Skywalk Pharmacy, the resident will learn first-hand what works and what areas could be improved upon in a community pharmacy, and influence positive change. They will also partner with experienced practitioners to initiate new programs and expand and enhance existing services. Travel to professional meetings and conferences at the state, regional and national level to engage with the profession and enhance learning experiences.

FRINGE BENEFITS
Health insurance, paid time off, travel allowance to NCPA annual meeting, and participation in NCPA’s Pharmacy Ownership Workshop.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Applicants to the UNC Eshelman School of Pharmacy Independent Pharmacy Ownership Residency Program must be graduates of an ACPE-accredited Doctor of Pharmacy degree program, be eligible for licensure as a pharmacist in Wisconsin. Submit an application form, letter of intent, curriculum vitae, transcript, and three letters of recommendation with personal reference forms to jake@skywalkpharmacy.com by January 1st, 2018.

TRAINING SITE FEATURES
Skywalk Pharmacy is a full service pediatric retail and specialty pharmacy providing a broad spectrum of services from routine medications to highly complicated compounded prescriptions. The focus of Skywalk Pharmacy is to enhance Skywalk’s collaboration with Children’s Hospital of Wisconsin providers and to support the outpatient discharges and Transitions of Care program. The role of the Milwaukee staff is to provide efficient discharge prescriptions for the hospital and to identify patients suitable for their clinical programs.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 2
Application Deadline: December 31
Starting Date: July 1
Estimated Stipend: $47,487

SPECIAL FEATURES
Our PGY-1 clinical residency provides the opportunity to develop advanced pharmacy practice skills in a progressive community hospital setting. Clinical pharmacists provide comprehensive inpatient pharmaceutical care services to patients in all care areas of the hospital including the medical/surgical adult ICU, cardiology, emergency department, internal medicine, neurology, neonatology, obstetrics, oncology, psychiatry, and surgical units. Additionally, clinical specialist pharmacists provide expertise in the areas of anticoagulation, critical care, drug information, infectious diseases, informatics, medication safety, nutrition support, perinatal and perioperative management to complement the clinical pharmacist care teams. Residency rotations are available in these various practice areas with dedicated preceptors who have extensive clinical experience. Each resident’s rotation schedule is tailored to meet his or her individual needs and interests. The residents provide didactic and experiential teaching to PharmD students during their clinical rotations at UnityPoint Health-Meriter. In addition, the residents provide instruction to 2nd and 3rd year Doctor of Pharmacy students in the Integrated Pharmacotherapy Skills Lab at the University of Wisconsin. Residents are encouraged to participate in the UW-Madison Teaching Certificate Program designed to develop and enhance their teaching skills. A research project is required of all residents completing the program.

FRINGE BENEFITS
Health and dental insurance, 23 days paid time off, funding and travel allowance for educational meetings.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Curriculum vitae, college of pharmacy transcripts, application form (completed using PhORCAS), three letters of recommendation, on-site interview, copy of two projects and/or presentations, eligibility for Wisconsin licensure. Only applicants participating in the Resident Matching Program and graduating from an ACPE-accredited College of Pharmacy will be considered for this program.

TRAINING SITE FEATURES
St. Mary’s Hospital is a member of SSM Health and is affiliated with Dean Medical Group. The system in Wisconsin includes three hospitals, a stand-alone emergency department, two nursing homes, a home health agency, forty clinics, three surgery centers, a managed care organization and health plan, research foundation and eight clinic pharmacies. St. Mary’s Hospital provides 24-hour pharmacy services via a team of clinical specialists, staff pharmacists, central technicians and medication reconciliation technicians. Clinical services are decentralized and include medication reconciliation, order verification, pharmacokinetic drug dosing and monitoring, nutritional support, coordinated care rounds, antimicrobial stewardship, and discharge coordination.

RESIDENCY PROGRAM
Duration/Type: 12 months
Number of Positions: 2
Application Deadline: January 5
Starting Date: June 18
Estimated Stipend: $47,476

SPECIAL FEATURES
This health-system residency can be individualized to meet the needs and interests of the resident. Required rotations include general medicine, adult critical care, inpatient operations, practice management, medication safety, transitions of care, and drug information. Optional rotations are available in academic/teaching, inpatient specialties, and many ambulatory sites. Rotations may be extended or other rotations made available based on the interest of each individual resident.

FRINGE BENEFITS
Health and dental insurance, 23 days paid time off, funding and travel allowance for educational meetings.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Curriculum vitae, college of pharmacy transcripts, application form (completed using PhORCAS), three letters of recommendation, on-site interview, copy of two projects and/or presentations, eligibility for Wisconsin licensure. On-site interview is required. Applications are accepted through PhORCAS (Pharmacy Online Residency Application Service).

TRAINING SITE FEATURES
St. Mary’s Hospital is a member of SSM Health and is affiliated with Dean Medical Group. The system in Wisconsin includes three hospitals, a stand-alone emergency department, two nursing homes, a home health agency, forty clinics, three surgery centers, a managed care organization and health plan, research foundation and eight clinic pharmacies. St. Mary’s Hospital provides 24-hour pharmacy services via a team of clinical specialists, staff pharmacists, central technicians and medication reconciliation technicians. Clinical services are decentralized and include medication reconciliation, order verification, pharmacokinetic drug dosing and monitoring, nutritional support, coordinated care rounds, antimicrobial stewardship, and discharge coordination.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 5-6
Application Deadline: January 2
Starting Date: June
Estimated Stipend: $47,500

SPECIAL FEATURES
The PGY1 pharmacy residency program at UW Health provides residents with extensive experience in an advanced clinical practice setting that has been named the top hospital in Wisconsin by U.S. News & World Report for the past five years. Residents are challenged to conceptualize, integrate and transform accumulated experiences into skill and competence in providing patient care. Residents receive training in areas including internal medicine, cardiology, neurology/neurosurgery, solid organ transplantation, critical care, surgery, pediatrics, hematology/oncology, emergency department, ambulatory care, managed care, drug information and drug policy development, investigational drug services, and pharmacy practice management. There are frequent opportunities to teach and precept pharmacy students in clinical practice settings, including at the UW School of Pharmacy and through the teaching certificate program. Residents present their research, quality improvement, and drug usage evaluation projects at local, regional, and national meetings, and the opportunity exists for a resident’s experience to be tailored in order to facilitate a second year of specialty residency training at UW Health.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Submission of application materials via PhORCAS, an onsite interview, PharmD degree, and eligibility for Wisconsin licensure. Please see www.uwhealth.org/pharmacy for details.

TRAINING SITE FEATURES
UW Health is the integrated health system of the University of Wisconsin – Madison, serving more than 600,000 patients annually in the Upper Midwest and beyond with approximately 1,500 physicians and 16,500 staff at six hospitals and 80 outpatient sites. University Hospital is a 505 bed tertiary care, level 1 trauma, academic medical center with extensive research, clinic, ambulatory care, home care, HMO and referral services augmenting its advanced inpatient clinical services. Additionally, UW Health houses the American Family Children’s Hospital, an 87-bed level 1 pediatric trauma center; one of the nation’s largest solid organ transplant programs; and the Carbone Cancer Center, one of 41 National Cancer Institute-designated comprehensive centers in the country. With fully implemented CPOE, UW Health has completely electronic medical records, which allows for extensive clinical research opportunities.

The department is extensively automated with robotic drug distribution technology and a Pharmacy Services Building (opened in 2017) to support inpatient and outpatient dispensing functions and with a totally integrated information system and network. The pharmacy staffing model is considered an integrated model, in which the staffing pharmacist is accountable for all aspects in the provision of patient care. Beginning with patient medication interviews and medication reconciliation, to discharge medication reconciliation and medication consultation, active pharmacist involvement is a key component to UW Health providing quality patient care. Overall, pharmacy practice at UW Health is a fast-paced, intense, and challenging environment, and is well suited for motivated and high-performing residents who desire the highest level of instruction.

RESIDENCY PROGRAM
Duration: 12 months
Number of Sites: 5
Application Deadline: January 5
Starting Date: July 1
Estimated Stipend: $41,000

SPECIAL FEATURES
The UWCRPRP was established in 2003 in a collaborative effort by the UW-Madison School of Pharmacy and a group of independent community pharmacies involved in training community pharmacy residents with the goal of enhancing the practice skills of today’s community pharmacist.

The residency program is a structured learning environment that offers innovative practice experiences through a variety of community practice sites as well as unique opportunities for teaching and research with faculty members at the University of Wisconsin – Madison School of Pharmacy. Residency is twelve consecutive months, beginning July 1 through June 30 of the following year. Graduates work alongside expert preceptors and academic mentors to develop competence in the following areas: Patient Care, Advancement of Community-based Practice, Leadership and Management, Teaching, Education, and Dissemination of Knowledge, and Self-evaluation and Self-directed Learning.

FRINGE BENEFITS
Health, dental and liability insurance, 5 days paid approved professional leave, 10 days paid personal/vacation/sick days, seven major holidays off, and travel support to attend the following professional meetings: PSW Immunization Training, PSW Annual Meeting, APhA Annual Meeting, PSW Education Conference – Registration and Great Lakes Residency Conference.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Hold a Doctor of Pharmacy degree from an ACPE accredited school, have prior clerkship experience in the provision of advanced patient care services in a community pharmacy setting, be eligible for licensure in Wisconsin, and be a U.S. Citizen or permanent resident of the U.S.

Application form, letter of interest, Curriculum Vitae (CV), Official College/School of Pharmacy transcripts, three letters of recommendation, all submitted via PhORCAS.

TRAINING SITE FEATURES

16
The Medicine Shoppe Pharmacy, Two Rivers (Preceptor: Marvin R. Moore, PharmD and Brain Jensen, RPh) The Two Rivers Medicine Shoppe Pharmacy consists of two integrated practice sites: a community-based pharmacy and an office-based pharmacy specializing in medication therapy management, compounding and collaborative practice with an independent physician. The constant in this practice has been a commitment to patient focused pharmacy care recognized on a state and national level for innovation. Pioneering work with such quality-based program initiatives as the Wisconsin Pharmacy Quality Collaborative, HealthMapRx, and Foundation Care has served to develop and sustain this care model. Recently re-engineered, the facility design/workflow has served as prototypes for the pharmacy profession. Three pharmacists and 12 pharmacy technicians provide staffing in these integrated sites. The Two Rivers Medicine Shoppe Pharmacies have been involved in resident training since 1999.

Streu’s Pharmacy Bay Natural, Green Bay (Preceptor: Nicole Schreiner, PharmD) Streu’s Pharmacy Bay Natural is an independent community pharmacy practice since 1954. With the marriage of traditional medicine plus natural options, the nutritionist, two registered nurses, and with pharmacists are health coaches who offer a balanced approach to helping patient achieve their personal best. Streu’s Pharmacy is divided into three departments: a retail pharmacy, long term care pharmacy, and Bay Natural store. One of the most unique aspects of the site is that the owners work next to the resident in the workflow; two of them are staff pharmacists and the other one is a nurse. Residents participate in immunizations, disease state screenings such as blood pressure and cholesterol, comprehensive medication reviews (site is WPQC accredited with 2 certified pharmacists and 3 certified technicians), and giving presentations to the public and other health care professionals using the on-site classroom.

Hometown Pharmacy (Preceptor: Abibigail Linde, PharmD) is a locally owned business with over 40 locations throughout Wisconsin that strives to provide leading edge pharmacy and complementary health care services. Beaver Dam Hometown Pharmacy offers many services one might expect from a community-based pharmacy such as specialty adherence packaging, immunizations, and MTM services but is also currently expanding clinical services. With a pharmacist health coach on staff, utilizing nutraceuticals, a body composition machine, and an appointment based practice model we provide weight loss and wellness coaching programs to improve the health of our patients. We have also developed a collaboration with mental health nurse practitioners to provide access to psychiatric services and long acting injectable medications. Residents will have the opportunity to expand clinical services and establish collaborative practice agreements with local practitioners in the areas of tobacco cessation, substance abuse, and more. In addition, residents will utilize available opportunities at our other locations to further expand the scope of the experience.

Boscobel Pharmacy (Preceptor: Michelle Farrell, PharmD) is an independently owned pharmacy offering advanced patient care services. We employ an experienced staff of pharmacists, technicians, bookkeepers, and pharmacy assistants to assure a high level of patient care. Our patient care services include synchronized pick up, medication management, new to therapy follow up, immunizations, disease state screenings such as blood pressure and compression, CPAP, oxygen, enteral care provision. We maintain several collaborative practice agreements and work closely with our local clinic and hospital providing various forms of consultation. We look forward to training the next generation of community pharmacists and accept students from the University of Wisconsin-Madison, Concordia University, and University of Iowa.

Hayat Pharmacy (Preceptor: Dimmy Sokhal, PharmD) is a Milwaukee-based independent pharmacy with over 10 locations. Hayat Pharmacy is focused on patient adherence, in-person medication therapy management (one-on-one medication education with a pharmacist) and medication synchronization through our Simplify My Meds program. Our pharmacists work collaboratively with other members on the healthcare team. Hayat Pharmacy is a nationally-recognized leader in the field of innovative medication management. We are dedicated to improving the health outcomes of patients with chronic conditions. Our award winning adherence programs allow us the flexibility to implement optimized programs to meet our patients’ needs while delivering unmatched local patient fulfillment.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 3
Application Deadline: January 8
Starting Date: Mid June
Estimated Stipend: $46,000

SPECIAL FEATURES
The pharmacy residency program is designed to develop independent, insightful practitioners prepared to assume an advanced clinical practice position in a community hospital, pursue a PGY2 in a focused area of interest, or serve as adjunct faculty for a college of pharmacy. Residents completing the program will expand their knowledge and skill in providing optimal pharmaceutical care in various patient-care settings and develop critical thinking and time management skills that will allow them to become self-directed leaders within both their practice setting and the pharmacy profession. Rotations include: Administration/Drug Policy, Cardiology, Central Pharmacy, Critical Care, Internal Medicine, and Research/flex-time. Longitudinal rotations include: Ambulatory Care (neurology clinic), Pharmacy Practice (staffing), and Medication Safety. Elective opportunities include: Academia, Critical Care II, Infectious Diseases and Antimicrobial Stewardship, Neonatal Intensive Care, and Orthopedic Surgery. Residents completing the Academia elective will have the option of obtaining a teaching certificate through Concordia University – Wisconsin School of Pharmacy. A yearlong research project will be presented at the ASHP Midyear Clinical Meeting and the Great Lakes Pharmacy Resident Conference.

FRINGE BENEFITS
Health, dental, vision, and life insurance; 25 days paid time off; education and travel support; free parking.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of an accredited School of Pharmacy and eligibility for licensure in Wisconsin. The following to be submitted in PhORCAS: Letter of Intent, Curriculum Vitae, Three letters of Recommendation, School of Pharmacy Transcripts, and Supplemental Application (available on residency program website).

TRAINING SITE FEATURES
PGY1

Wheaton Franciscan Healthcare – St. Francis Hospital is home to the Center for Neurologic Disorders treating over 4,000 multiple sclerosis patients, as well as serving as the site for the Neurology Investigational Drug Center. St. Francis is accredited by the Society of Cardiovascular Patient Care as a Chest Pain center and Atrial Fibrillation Center featuring new technology including Arctic Front Cryoablation. St. Francis is also a Joint Commission certified Stroke Center with interventional radiology services including mechanical thrombolysis. St. Francis provides cancer care services with chemoembolization and radiation oncology, as well as behavior health services with an adult mental health and addiction care unit.

RESIDENCY PROGRAM
Duration: 53 weeks
Number of positions: 2
Application Deadline: January 8
Starting date: June 18
Estimated stipend: $48,000

SPECIAL FEATURES
The program emphasizes progressive pharmacy practice in a community hospital setting. Rotations include: pharmacy practice, internal medicine, critical care, adult ICU, emergency medicine, medication safety, chronic disease management, transitions of care, antibiotic stewardship, drug policy, and ambulatory care. Travel includes: ASHP Midyear and the Great Lakes Pharmacy Resident Conference. Presentations at conferences and to nursing, medical and pharmacy staff are expected. All Saints is affiliated with Concordia University School of Pharmacy.

FRINGE BENEFITS
26 days PTO including holidays, sick time; medical, dental and vision; retirement; conferences per year: ASHP Midyear and Great Lakes.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Submit materials through PhORCAS: Letter of intent, curriculum vitae, 3 letters of recommendation, School of Pharmacy academic transcript, eligible for licensure within 90 days of starting, member of ASHP.

TRAINING SITE FEATURES
PGY1 pharmacy residency programs build on Doctor of Pharmacy PGY1 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

Our pharmacy residency program provides residents the opportunity to learn in an atmosphere that promotes educational growth through shared respect, interdisciplinary collaboration, and patient-centered care. It is designed to develop independent-minded and forward-thinking practitioners seeking to advance the practice of pharmacy in a community hospital setting. All Saints’ commitment to the health and well-being of Greater Racine goes beyond the typical patient/provider relationship. Residents completing the program will become competent, confident and compassionate practitioners. They will function as effective and respected members of the healthcare team with the ultimate goal of providing comprehensive medication management services for our patients. Residents will be prepared to assume an advanced clinical practice position in a community hospital, pursue a PGY2 in a focused area of interest, or serve as adjunct faculty for a college of pharmacy.

As a part of Ascension Wisconsin, All Saints is dedicated to delivering quality care to patients through advanced technology, highly trained staff, and superior and compassionate service.

Required Rotations:
• Chronic Disease/Transitions of Care
• Orientation/Introduction to Pharmacy Practice
• Critical Care
• Emergency Medicine
• Internal Medicine
• Drug Policy
• Pharmacy Administration
• Infectious Disease
• Research Project
• Central Pharmacy Staffing
• Chronic Disease/Transitions of Care

Elective Rotations:
• Ambulatory Care
• Informatics
• Med Safety
• Administration
• Academia

All Saints is located in Racine, WI, on beautiful Lake Michigan and is 30 minutes south of Milwaukee and 1.5 hours north of Chicago, IL.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 8
Application Deadline: January 9
Starting Date: Mid June
Estimated Stipend: $47,486

SPECIAL FEATURES
Required rotations include: Critical Care, Neonatal ICU or Women’s Health, Emergency Medicine, Internal Medicine, Pharmacy Administration, Infectious Diseases, and Ambulatory Care. Elective rotations include Medication Safety, Geriatric Medicine, Oncology, Internal Medicine II, Critical Care II and Academia through Concordia University Wisconsin School of Pharmacy. Residents are expected to become ACLS certified and attend each cardiac/respiratory arrest while onsite. Additionally, residents will serve as site preceptors for IPPE students and assist in the training and APPE students. A series of leadership discussions are held throughout the year by the North Market Director of Pharmacy Services.

FRINGE BENEFITS
Health, dental, vision, and life insurance; 26 days paid time off; education
This residency is affiliated with the University of Wisconsin – Madison.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**
Content required in PhORCAS: Letter of Intent, Curriculum Vitae (including APPE rotations with preceptors), Three Letters of Recommendation, and School of Pharmacy Transcripts. A Supplemental Question Form (available on our residency program website) should be included in your PhORCAS application.

**TRAINING SITE FEATURES**
St. Joseph Campus has a de-centralized practice model with pharmacists strategically placed in critical care areas (NICU, ED, ICU) as well as the outpatient oncology, infectious diseases, general medicine and labor & delivery units. All pharmacists are ACLS certified and participate in medical emergencies. The site is an affiliated medical education teaching site for the Medical College of Wisconsin. The Pharmacy Department trains IPPE and APPE students from a variety of pharmacy schools, including the University of Wisconsin Midwestern University, Concordia University Wisconsin, and Rosalind Franklin University. Located in Milwaukee, Wisconsin, the area offers many opportunities to enjoy the outdoors and cultural events.

Number of Positions: varies
Application Deadline: See ASHP Residency Website
Starting Date: Beginning of pay period end of June/early July
Estimated Stipend: See ASHP Residency Website

**SPECIAL FEATURES**
The PGY1 Pharmacy Practice Residency program has been in existence for over 30 years. Residents completing this program can expect to acquire the high level of skill needed to manage patients in the ambulatory care setting. With this ambulatory care focus, residents provide medication therapy management to Veterans throughout Wisconsin and northern Illinois in both primary care and subspecialty clinics. While in primary care and during the home-based primary care rotation, residents are integrated into an interdisciplinary team and manage a variety of chronic disease states. Unique to this residency is the diversity of subspecialty clinics that residents will provide care in, including Diabetes, Allergy/Asthma, Rheumatology, Epilepsy, Osteoporosis, Pain Management, Mental Health, and Anticoagulation. Residents may also choose 2 electives from other subspecialty clinics, including Infectious Disease, Hepatitis C, Erythropoietin/Anemia, Dermatology, and Women’s Health. Finally, the development of formulary management skills helps to ensure residents are well-rounded in all aspects of patient care. In addition to completing patient appointments, residents will have the authority to write prescriptions, order laboratory and other diagnostic tests, consult other services when indicated, and develop therapeutic and monitoring plans for patient follow-ups, all within a scope of practice and in conjunction with a Clinical Pharmacy Specialist.

This residency is affiliated with the University of Wisconsin – Madison School of Pharmacy, where residents also serve as clinical instructors in the Pharmacotherapy Lab. They also have the opportunity to participate in a teaching certificate program offered through the school.

**FRINGE BENEFITS**
Health insurance, 13 vacation days, 13 sick days and 10 holidays/year plus administrative leave to attend meetings

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**
Graduate of an accredited school of pharmacy. May be licensed in any state. US Citizen or permanent resident of the US. Academic transcript and curriculum vitae are required. See ASHP Residency Website for details.

**TRAINING SITE FEATURES**
The multi-facility Pharmacy Department is an innovative leader within VHA in the development of progressive operational, clinical, and educational services. In addition to integrating enhanced automation, the pharmacy team (which consists of over 130 team members) was the first VHA facility to create a residency program in direct medication therapy management – and is one of the most progressive VHA pharmacy services concerning the application of evidence-based medication use guidelines and pharmaco-economic application and research practices.

**RESIDENCY PROGRAM**
Duration: 12 months
Number of Positions: 1
Application Deadline: See ASHP Residency Website
Starting Date: Beginning of pay period end of June/early July
Estimated Stipend: See ASHP Residency Website

**SPECIAL FEATURES**
Residents completing this program can expect to acquire the high level of skill required to manage patient care as integral members of interdisciplinary teams. Residents rotate between acute care and ambulatory care, spending equal time in both settings. Acute care experiences include general medicine, ICU, and rehabilitative medicine. Ambulatory care experiences include primary care and a variety of specialty clinics, including Diabetes, Pain Management, Anticoagulation, Tobacco Treatment, and Osteoporosis. Residents also complete a formulary management rotation, where they develop skills in order to be well-rounded in all aspects of patient care. In addition to rounding on the inpatient wards and completing patient appointments in clinic, residents will have the authority to write for medications, order laboratory and other diagnostic tests, consult other services when indicated, and develop therapeutic and monitoring plans for patient follow-ups, all within a scope of practice and in conjunction with a Clinical Pharmacy Specialist.

Though this residency only has one position, the Madison VA has 16 residents across 5 programs, allowing for diversity and collaboration. This residency is also affiliated with the University of Wisconsin – Madison School of Pharmacy, where residents also serve as clinical instructors in the Pharmacotherapy Lab. They also have the opportunity to participate in a teaching certificate program offered through the school.
FRINGE BENEFITS
Health insurance, 13 vacation days, 13 sick days and 10 holidays/year plus administrative leave to attend meetings.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application deadline: January 8
Starting date: July 1
Estimated Stipend: $58,000

SPECIAL FEATURES
The first four weeks will focus on hospital, pharmacy, and technology orientation. Rotations generally include two to four weeks of concentrated training, followed by longitudinal exposure and are designed to integrate both local and system-level training. Longitudinal experiences may be six or twelve months in total duration. The length and type of experience in each area is tailored to the practice interests and previous experience of each resident. Time for clinical electives is offered throughout the year to further develop the resident’s direct patient-care skills. Each resident is asked to complete a project that helps contribute to the body of knowledge in pharmacy practice. The scope of the PGY2 project will be applicable to pharmacy practice at the health-system level. The resident will present the final research at the Great Lakes Regional Residency Conference, and prepare a final written manuscript.

FRINGE BENEFITS
Generous paid time off, medical, dental, and vision coverage, savings plan, flexible spending accounts, life insurance, and short/long term disability. Also included are travel allowance for educational meeting participation and project presentation.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Participation in PhORCAS (Pharmacy Online Residency Centralized Application). Each applicant must have a PharmD/Bachelor of Science from an accredited college of pharmacy in the U.S., completed an accredited PGY1 residency, and be eligible for licensure in Wisconsin. A letter of intent, curriculum vitae, three letters of recommendation, and an official college transcript are required with the online application. An onsite interview will be required.

TRAINING SITE FEATURES
Ascension is a faith-based healthcare organization dedicated to transformation through innovation across the continuum of care. As the largest non-profit health system in the U.S. and the world’s largest Catholic health system, Ascension is committed to delivering compassionate, personalized care to all with special attention to persons in poverty and those struggling the most. Ascension Wisconsin includes Columbia St. Mary’s, Wheaton Franciscan Healthcare and Ministry Health Care (which includes Affinity Health System), with 27 hospitals and hundreds of sites of care across the state. Together, the health systems employ more than 24,000 associates and nearly 1,000 medical group physicians. Ascension Wisconsin | Ministry Health Care – Health-System Pharmacy Administration Residency is a multi-site residency.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 1
Starting Date: Around July 1
Estimated Stipend: $46,172

SPECIAL FEATURES
The Clement J. Zablocki VA Medical Center PGY2 Internal Medicine residency program focuses on inpatient medicine. The resident will work with medical teams (attending physicians, residents, interns and medical students) to maximize the pharmacotherapy for medicine patients. The resident will also have extensive precepting experiences with pharmacy students completing advanced pharmacy practice experiences (APPE). In addition, the resident will have the option to obtain a teaching certificate and become involved in on-campus teaching at Concordia University Wisconsin School of Pharmacy. Upon completion of the program, the resident should have the knowledge, skills and leadership ability necessary to function as a clinical pharmacy specialist in internal medicine with precepting responsibilities and/or academia. Required rotations include internal medicine, cardiology, intensive care, infectious diseases and precepting. A variety of electives are available including congestive heart failure clinic, spinal cord injury, endocrinology, mental health, nutrition, administration, nephrology, oncology and more. The program is flexible to meet the goals of the resident. Additional responsibilities include involvement in medication safety initiatives, interdisciplinary meetings, and teaching diabetes classes to veterans. Each resident will be assigned a residency mentor that will follow their progress over the course of the year. In addition, the year-long residency project is a requirement of all residents with at least one mentor assigned for the project process. PGY2 residents are highly encouraged to pursue publication.

FRINGE BENEFITS
Competitive salary, Medical/Dental insurance, 10 Federal holidays, 10 vacation days, Paid time off for Medical/Dental appointments, Tuition and travel support for professional conferences, Free parking, Office space, Opportunity to work for pharmacist wage on off-duty time.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Applicants must have Pharm.D. degree, be an U.S. citizen (a requirement to be employed by Department of Veterans Affairs) and have successful completion of PGY1 Residency or equivalent experience by the start of the program. RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 6
Starting Date: Around July 1
Estimated Stipend: $46,172

SPECIAL FEATURES
The medication safety resident will work as part of an interprofessional team focusing on the improvement of safe medicine practices within the medical center. The team will consist of the pharmacy resident, a graduate nurse fellow, and a physician. The resident will receive training in performance improvement processes including health care failure modes effects analysis, root cause analysis, LEAN and Six Sigma. These processes will be used throughout the year to evaluate and develop solutions to medication safety issues identified within the institution. The resident will work with various interdisciplinary committees in the institution that focus on different aspect of the medication use process. In addition, the resident will have the option to obtain a teaching certificate and become involved in on-campus teaching at Concordia University Wisconsin - School of Pharmacy. Residents completing this program will be well positioned to function as a Medication Safety Specialist in a health-system setting.

FRINGE BENEFITS
Competitive salary, Medical insurance, 10 Federal holidays, 10 vacation days, 10 sick days, Tuition and travel support for professional conferences, Free parking, Office space, Opportunity to work for pharmacist wage on off-duty time.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 1
Starting Date: June 26
Estimated Stipend: $46,000+

SPECIAL FEATURES
The Clement J. Zablocki VA Medical Center offers a one year PGY2 residency in psychiatric pharmacy for pharmacists desiring advanced clinical training in the care of patients with psychiatric and neuropsychiatric disorders. The program is accredited by the American Society of Health-System Pharmacists (ASHP). The PGY2 Psychiatric Pharmacy Residency builds upon experiences gained through a PGY1 program and is designed to offer both didactic and clinical experiences leading to the development of a practitioner with expert knowledge in the area of psychiatric pharmacotherapy. Training will include experiences in acute inpatient psychiatry, inpatient consult/ liaison psychiatry, mental health residential rehabilitation treatment program, Concordia University Wisconsin (CUW) pediatrics and neurology. Longitudinal experiences will include primary care mental health integration, metabolic syndrome monitoring clinic, clozapine clinic, smoking cessation clinic, administration, and research. Elective experiences include geriatric psychiatry, immediate mental health access clinic, academic detailing, and the CUW mental health elective. In addition, the resident will be involved in mentoring 4th year APPE students and PGY1 residents. The resident may also choose to complete a teaching certificate at CUW as part of the rotation.

FRINGE BENEFITS
Medical insurance, 10 Federal holidays, 10 vacation days, 10 sick days, travel support for professional conferences, free parking, office space.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Applicants must be U.S. citizen, Pharm.D. and successful completion of an accredited PGY1 Residency or equivalent experience. Application materials include a letter of intent, curriculum vitae (CV), transcripts, and three references. All application materials must be submitted in PhORCAS. An on-site interview is required.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
The PGY2 Ambulatory Care Residency will prepare the graduate for an advanced role in an ambulatory care setting, a leadership role or a faculty position. The program provides comprehensive training in development of sustainable ambulatory services, practice management, and integration into multidisciplinary teams. Opportunities include primary care/internal medicine, administration, wellness, service development, academia, geriatrics, behavioral health, cardiology, endocrinology, infectious disease, transplant, rheumatology, oncology, medication safety, emergency medicine, GI/hepatology, pulmonary, and specialty pharmacy.

FRINGE BENEFITS
Three weeks of paid time off, six paid holidays, health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency. Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital is a 533-bed acute care facility and a leading referral resource for advanced medical care. Froedtert Hospital also operates the region’s only Level I Trauma Center. The primary adult teaching affiliate of the Medical College of Wisconsin, Froedtert Hospital is a major training facility for more than 1,000 medical, nursing and health technical students annually. It is also a respected research center, participating in some 2,000 research studies, including clinical trials, every year. Froedtert Hospital is located on the Milwaukee Regional Medical Center campus. Campus partners are: BloodCenter of Wisconsin, Children’s Hospital of Wisconsin, Curtiss Health Network, the Medical College of Wisconsin, and the Milwaukee County Behavioral Health Division. Froedtert Hospital is part of the Froedtert & MCW health care network, which also includes Community Memorial Hospital, Menomonee Falls; St. Joseph’s Hospital, West Bend; and more than 25 primary and specialty care health centers and clinics. All physicians who practice at Froedtert Hospital are Medical College of Wisconsin faculty who are dedicated to patient care, research and teaching. Our physicians are consistently honored by recognition in Best Doctors in America®, and other local and national publications. Patients benefit from a full range of medical and surgical specialties, ranging from general medicine to neurosurgery. At Froedtert & MCW more than 37 different medical specialties work together as multi-disciplinary teams treating everything from the routine to the most difficult cases.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 2
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
This program is designed to provide advanced clinical training and leadership opportunities from a dedicated and knowledgeable critical care preceptor team. Built on over 20 years of experience training PGY1 residents, this specialty program offers many evidence-based clinical experiences. Required rotations include surgical/trauma-, medical-, neurosurgical-, and cardiovascular-critical care, emergency medicine, and nutrition. Elective rotations may include toxicology, infectious disease, peri-operative pharmacy, solid organ transplant, academia (Concordia University), and Community Critical Care (Community Memorial Hospital). Research projects and teaching activities are tailored to meet the needs/interests of the resident. Residents will have the opportunity to precept residents and APPE students on clinical rotations. ACLS, PALS, and FCCS training provided.

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency. Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
This PGY2 residency offers comprehensive training in emergency medicine. Core experiences include adult, academic, and community emergency medicine; clinical toxicology; pre-hospital EMS/Flight medicine; and critical care medicine. Clinical toxicology is an important component of the program. The resident will work closely with toxicologists during their longitudinal experience to lay the foundation for board certification through the American Board of Applied Toxicology (ABAT). Residents will have ample opportunities for teaching and research in EM and toxicology. Elective rotations may include infectious diseases, surgical ICU, cardiovascular ICU, neurosurgical ICU, cardiology, HIV clinic, inpatient hematology, antimicrobial stewardship, and academia.

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency. Participation in PhORCAS plus required supplemental materials. See residency website or contact program for details.

TRAINING SITE FEATURES
Froedtert Hospital is a 536-bed academic medical center, a leading referral resource for advanced medical care, a comprehensive stroke center, and the region’s only adult Level I Trauma Center. Froedtert Hospital is the primary adult teaching affiliate of the Medical College of Wisconsin. Several members of the Department of Emergency Medicine faculty serve as Medical or Associate Directors for the Milwaukee County EMS, Flight For Life, and Wisconsin’s only Poison Center. The Froedtert Hospital Emergency Department provides treatment for approximately 72,000 patients each year, including more than 2,200 trauma patients. The Department of Pharmacy maintains excellent rapport with nursing and medical staff and is actively involved in their educational programs, policy development and clinical initiatives. Residents will gain clinical and practical exposure in several emergency care settings (pre-hospital, academic, and community), toxicology, and critical care.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 2
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
This residency program is designed to provide an advanced experience in infectious diseases clinical practice and antimicrobial stewardship. The ID residency combines several required rotations (infectious diseases consult services, antimicrobial stewardship, antimicrobial stewardship administration, microbiology, longitudinal infectious diseases/HIV clinic, antimicrobial stewardship on call) with elective rotations (bone marrow transplant, heme/onc, emergency medicine, MICU, SICU, peds ID, informatics/clinical decision support, and more) which allows the resident to tailor the year to meet his/her objectives. Research projects, active participation in the antimicrobial stewardship team, teaching activities and precepting students and residents are integral components of the residency program as well. The overall goal of this residency program is to develop a well-rounded, independent practitioner who is a valued member of ID multidisciplinary teams.

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency. Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 3
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
This specialty residency is designed to provide comprehensive clinical training in oncology and leadership development opportunities. It offers evidence-based clinical experience in multiple oncology settings including ambulatory care, inpatient oncology, inpatient and ambulatory blood and marrow transplant, transitions of care and investigational drug services. Elective opportunities include benign hematology, infectious disease, palliative care, informatics, oncology critical care and academic opportunities at Concordia University School of Pharmacy. Resident activities, including research projects, teaching activities, and precepting students and residents, are tailored to meet the needs and interests of the resident. Upon completion of the residency, the graduates’ advanced knowledge and leadership skills will enable them to practice as an integral member of an interdisciplinary team in the care of the oncology patient, engage in clinical instructor and precepting opportunities, and they will be prepared to attain board certification (BCOP).

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency. Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital, the largest facility in the Froedtert & the Medical College of Wisconsin System, is a 516 bed academic medical center and level one trauma center. We are located on the Milwaukee Regional Medical Center Campus, which encompasses the Medical College of Wisconsin and Children’s Hospital of Wisconsin. Within the campus is a Clinical Cancer Center that opened in 2008 and offers patient centered care through 14 different disease specific cancer programs and multiple cancer related support programs. Pharmacists provide clinical services throughout the Clinical Cancer Center. The Department of Pharmacy maintains an excellent rapport with nursing and medical staff and is actively involved in their educational programs, policy development and clinical initiatives. In addition, pharmacists provide education, medication monitoring, and other services in several ambulatory clinics on campus.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
The PGY2 Pharmacy Informatics program will prepare residents to assume the role of a pharmacy informaticist. Projects and longitudinal activities will relate to the resident’s interest in pharmacy informatics and technology. The resident will be exposed to electronic health record management (inpatient, ambulatory, and oncology), administrative operations and technology, drug policy and information management, medication safety, design and human factors, clinical decision support, reporting and analytics, and informatics. Residents will complete a certification for Epic Willow Inpatient and have exposure to multiple informatics teams. Residents also have opportunities to precept residents and APPE students on clinical rotations and are encouraged to pursue external publications and presentations.

Upon graduation, residents are prepared for roles in a variety of health care related informatics disciplines. The pharmacy informatics team at Froedtert & the Medical College of Wisconsin supports medication use throughout a regional health network composed of an academic medical center, two community hospitals, and more than 30 primary and specialty care health centers and clinics. The team has significant experience and expertise in health information technology, electronic health record management, and clinical decision support.

FRINGE BENEFITS
Three weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of an ASHP-accredited PGY1 residency, Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital is a 536-bed academic medical center and a leading referral resource for advanced medical care. Froedtert Hospital also operates the region’s only adult Level I Trauma Center. The primary adult teaching affiliate of the Medical College of Wisconsin, Froedtert Hospital is a major training facility for more than 1,000 medical, nursing and health technical students annually. It is also a respected research center, participating in some 2,000 research studies, including clinical trials, every year. Froedtert Hospital is located on the Milwaukee Regional Medical Center campus. Campus partners are: BloodCenter of Wisconsin, Children’s Hospital of Wisconsin, Curative Care Network, the Medical College of Wisconsin, and the Milwaukee County Behavioral Health Division. Froedtert Hospital is part of the Froedtert & MCW health care network, which also includes Community Memorial Hospital, Menomonee Falls; St. Joseph’s Hospital, West Bend; and more than 25 primary and specialty care health centers and clinics. All physicians who practice at Froedtert Hospital are Medical College of Wisconsin faculty who are dedicated to patient care, research and teaching. Our physicians are consistently honored by recognition in Best Doctors in America®, and other local and national publications. Patients benefit from a full range of medical and surgical specialties, ranging from internal medicine to neurosurgery. At Froedtert & MCW more than 37 different medical specialties work together as multi-disciplinary teams treating everything from the routine to the most difficult cases.

Marshfield Clinic - Informatics Residency

1000 North Oak Avenue
Marshfield, WI 54449
www3.marshfieldclinic.org/residents

PROGRAM DIRECTOR/CONTACT PERSON
Luanne Sojka, PharmD, BCPS
Tele: (715) 221-9818
Fax: (715) 221-7880
sojka.luanne@marshfieldclinic.org

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 15
Starting Date: July
Estimated Stipend: $48,000

SPECIAL FEATURES
The pharmacy informatics residency is designed to equip the resident with the necessary tools and experiences to achieve a position in clinical informatics at the completion of the program. The resident will have a variety of project opportunities, and thus the program may be tailored to the resident’s interests and current needs of the Clinical Pharmacy Services department, Information Systems, and the Institute of Quality, Innovation, and Patient Safety (IQIPS). The resident will also have responsibilities which are consistent with guidelines from ASHP. The purpose of the program is to prepare the resident to be a clinical pharmacy informaticist specialized in ambulatory clinic practice and independently act as a leader and pioneer in pharmacy informatics with specialized expertise in: 1) patient safety within the medication use system, 2) clinical informatics with a focus on clinical decision support, and 3) technology and automation assessment, implementation, and workflow integration. The program consists of a series of educational rotations (required and elective) and a number of longitudinal experiences. Rotations include: Introduction to Pharmacy Informatics, Clinical Medication Management Systems, Project life Cycle, Patient Safety and Informatics, Clinical Decision Support, System Level Medication Distribution and Inventory Control, Ambulatory Medication Use System, Data Management and Data Reporting, Interoperability and Code Sets, Drug Information Vendor Analysis, Evidence-based Data Source Validation. Longitudinal experiences include: Research and Service Development, Leadership, and Committee Involvement. Our program had our first ASHP accreditation site visit in May 2014 and enrolled our first resident in 2012-2013. Marshfield Clinic has a dedicated resident research facilitator to aid medical and pharmacy residents in development of their longitudinal research projects.

FRINGE BENEFITS
The resident receives health/dental insurance, sick leave, paid vacation/holiday, life insurance and 401 (k) plan, and professional travel reimbursement.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of accredited school of pharmacy, curriculum vitae, Marshfield Clinic on-line application, official school of pharmacy college transcripts, three letters of recommendation, eligibility for WI pharmacist licensure.
Completion of PGY-1 Residency program. This program also participates in ASHP PhORCAS program.

TRAINING SITE FEATURES
Marshfield Clinic is a private, not-for-profit, multi-specialty physician group practice dedicated to serving patients through accessible, high quality health care, research, and education. Founded in 1916, Marshfield Clinic has become one of the largest physician group practices in the United States. Marshfield Clinic serves more than 380,000 unique patients annually at over 50 locations throughout northern, central and western Wisconsin. Marshfield Clinic is a large group practice actively involved in the development, commercialization, and deployment of clinical IT solutions. Marshfield Clinic has always been a leader in health informatics, with systems like CPOE to assist in efficient and accurate medication ordering (Clinical Medications Manager) and a comprehensive combined electronic medical record.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 15
Starting Date: July
Estimated Stipend: $48,000

SPECIAL FEATURES
Resident will transition from generalist practice to a specialized role as an organizational leader in the achievement of medication-use safety. The PGY-2 Pharmacy Resident will gain fundamental skills required to lead multidisciplinary teams whose function is to vision a safe medication-use system for the organization, identify needed improvements in the present system, plan for and implement needed changes, and assess the change achieved. This will include knowledge of decision-support, principles of human error and human factors engineering, medications-use safety nomenclature, and the culture of safety. Residents will be able to interpret and synthesize information from a variety of sources to formulate recommendations for improvement and have a broad perspective of organizational dynamics. Resident are also trained to be highly effective communicators and project managers and are able to employ this background to effectively represent the medication-use safety perspective when the organization considers the design and its technology and automation systems.

FRINGE BENEFITS
The resident receives health/dental insurance, sick leave, paid vacation/holiday, life insurance and 401 (k) plan, and professional travel reimbursement.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Graduate of accredited school of pharmacy, curriculum vitae, Marshfield Clinic on-line application, official school of pharmacy college transcripts, three letters of recommendation, eligibility for WI pharmacist licensure, Completion of PGY-1 Residency program. PROGRAM DIRECTOR/CONTACT PERSON
Katherine J. Hartkopf, PharmD, BCACP
Phone: (608) 203-4889
Fax: (608) 203-4894
khartkopf@uwhealth.org

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: June/July
Estimated Stipend: $47,500

SPECIAL FEATURES
The primary focus of the residency is to become a successful clinical ambulatory care pharmacist capable of leading and managing ambulatory care services within a health care system. To achieve this, the ambulatory care specialty resident will complete a combination of required and elective rotations to ensure that the resident is exposed to a variety of experiences, patient populations and interdisciplinary teams. This program provides training focused on the care of patients within primary care clinics, specialty care areas and transitional sites of care. The resident can expect to complete rotations in Family Medicine or Internal Medicine Clinic(s), a Federally Qualified Health Center, and specialty care areas including the Neurology Clinic, Kidney/Dialysis Clinic, Digestive Health Center, and Infusion Center. The final rotation schedule will be tailored to the resident’s needs and interests and will allow for electives in additional primary care and specialty care clinics, administrative settings, and other non-traditional pharmacy practice areas. The resident participates in the education of pharmacy students and interprofessional colleagues. Visit www.uwhealth.org/pharmacy and click on “Pharmacy Residencies, Training and Education” for more information.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Submit application materials via PhORCAS including: a letter of intent, CV (as Supplemental Information) and three letters of recommendation (both the required form and a written letter), onsite interview, PharmD degree, prior PGY1 pharmacy residency completion, and eligibility for Wisconsin licensure. For details, please see www.uwhealth.org/pharmacy and click on Pharmacy Residencies, Training and Education.
**PGY2**

**TRAINING SITE FEATURES**
Ranked as a top 5 hospital for quality among 333 ACOs. Named the top hospital in Wisconsin by U.S. News & World Report magazine in 2016. Ranked among the top 10 academic health centers nationwide in a University HealthSystem Consortium benchmarking study of safety, mortality, clinical effectiveness and equity in delivery of care. Named among the “100 Best Companies” in the nation by Working Mother magazine for nine consecutive years. Home of the Carbone Cancer Center, one of 41 federally designated centers for cancer treatment and research. One of the nation’s largest organ transplant programs, with outcomes consistently cited among the best in the nation and recognized by the US Department of Health and Human Services as an organ procurement best practice site. Pharmacist involvement at every step of the medication use process provides high levels of safety and quality in the provision of patient care. The department manages 14 retail pharmacies, a home care company, hospital and long-term care consulting services, full PBM managed care services the nation’s leading academic medical center specialty pharmacy, a telepharmacy mail order service, and a hospice facility. UW Health has 61 specialty clinics, 37 primary care clinics, and conducts more than 2,700,000 outpatient visits per year.

**RESIDENCY PROGRAM**
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: July 10
Estimated Stipend: $47,500

**SPECIAL FEATURES**
The residency at this tertiary care academic medical center is designed for pharmacy residents to receive advanced training in the area of critical care. The resident will gain hands on clinical skills by being an active part of a multidisciplinary team, caring for critically ill patients in a combined 24-bed medical/surgical (Level 1 Trauma Center) intensive care unit. This residency has several required rotations, such as medical critical care, surgical critical care, critical care nutrition, neurosciences ICU, pediatric ICU, and cardiac medicine ICU. Some of the many elective rotations include infectious disease, neonatal ICU, nephrology, cardiothoracic surgery ICU, transplant, operating room and emergency department. Other rotations can be customized to a special area of interest for the resident if desired. An independent decentralized staffing component in the ICUs is also required. There are teaching opportunities throughout the year, as residents will have the ability to precept PGY-1 residents and PharmD students who are on clinical rotations. Residents will gain teaching experience by being a teaching assistant in the Seminars in Critical Care class at the School of Pharmacy. Research skills will be developed by completing a clinical project which will be suitable for publication. BLS and ACLS training will be provided if needed.

**FRINGE BENEFITS**
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays,

10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin's recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**
Completion of a PharmD degree from an accredited school of pharmacy, prior completion of a PGY1 residency, eligibility for Wisconsin licensure, and an on-site interview, are all required in order to be considered for eligibility.

**TRAINING SITE FEATURES**
University of Wisconsin Hospital and Clinics (UWHC) is a 566 bed tertiary care, level 1 trauma, academic medical center with extensive research, clinic, ambulatory care, home care, HMO and referral services augmenting its advanced inpatient clinical services. With fully implemented CPOE, the UWHC has completely electronic medical records, which allows for extensive clinical research opportunities.

The department is extensively automated with robotic drug distribution technology to support inpatient and outpatient dispensing functions and with a totally integrated information system and network. The pharmacy staffing model is considered an integrated model, in which the staffing pharmacist is accountable for all aspects in the provision of patient care. Beginning with patient medication interviews and medication reconciliation, to discharge medication reconciliation and medication consultation, active pharmacist involvement is a key component to UWHC providing quality patient care. Overall, pharmacy practice at UWHC is a fast-paced, intense, and challenging environment, and is well suited for motivated and high-performing residents who desire the highest level of critical care instruction.

**RESIDENCY PROGRAM**

Duration: 12 months  
Number of Positions: 1  
Application Deadline: January 2  
Starting Date: June/July  
Estimated Stipend: $47,500

**SPECIAL FEATURES**

The UW Health Emergency Medicine Pharmacy Residency program is a broad educational experience designed to train pharmacists in all aspects of adult and pediatric emergency medicine. This program will prepare pharmacists to work independently and collaboratively with the emergency medicine team to care for adult and pediatric emergency medicine patients at a level 1, academic medical center. Residents in this program will develop confidence and competence through direct interaction with patients and other practitioners including emergency medicine physicians, emergency medicine residents, nurse practitioners, physician assistants, nurses, respiratory therapists, case managers, and social workers. Residents will develop the skills to manage all aspects of pharmaceutical care for emergency medicine patients across the spectrum of acuity in the emergency department.

This will include active participation in all code stroke, trauma, and code blue activation, ED culture review, rapid sequence intubations, medication order verification, review of discharge medications, patient and family education, and education of ED staff. Residents will also have the opportunity to strengthen their teaching and mentoring skills through precepting APPE students as well as first year pharmacy and administrative residents.

UW Health’s emergency medicine residency is very unique in the fact that the resident will serve as the sole clinical pharmacist in the emergency department for 16 hours every other weekend and on average four hours during the week. This level of autonomy early on in your training will foster confidence and clinical independence that will grow throughout the residency year. Pharmacists staff the emergency department 24 hours a day, seven days a week and have been providing direct patient care in the ED for well over 10 years. Pharmacist services are integrated into all aspects of patient care at UW Health.

**FRINGE BENEFITS**

Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**

Health insurance, 14 paid vacation days/holidays, 5 sick days, funding for professional meetings and access to the University of Wisconsin’s recreational, educational and cultural facilities.

**TRAINING SITE FEATURES**

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: see PhorCAS (usually first week of January)
Starting Date: July 1 (or date determined by the RPD)
Estimated Stipend: $47,500

SPECIAL FEATURES
The residency at this tertiary care academic medical center is designed for pharmacy residents to receive advanced training in the area of infectious diseases. The resident will gain hands on clinical skills by being an active part of a multidisciplinary team, caring for patients with infectious disease complications. The resident will also gain experience in antimicrobial stewardship, outpatient antimicrobial therapy, clinical microbiology lab, and clinical pharmacy administration. The residency program has several required rotations, including antimicrobial stewardship, bone marrow transplant, solid organ transplant, MICU/SICU, clinical microbiology laboratory, and home infusion (OPAT). An independent clinical staffing component may be tailored to the resident’s individual interests allowing for development of a deeper knowledge regarding a specific patient population. There are teaching opportunities throughout the year, as residents will have the ability to precept PGY-1 residents and PharmD students. Teaching experience and a teaching certificate are available through the University of Wisconsin School of Pharmacy. Research and project management skills will be developed by completing a clinical project which will be suitable for publication. BLS and ACLS training will be provided if needed.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. SPECIAL FEATURES
The resident in University of Wisconsin Hospital and Clinics’ Oncology Pharmacy Residency will participate as a member of the hematology/oncology team at UW Hospital and Clinics and UW Carbone Cancer Center. UW Carbone Cancer Center is the only comprehensive cancer center, as designated by the National Cancer Institute, in Wisconsin. In our Oncology Pharmacy Residency program, accredited by the American Society of Health-system Pharmacists (ASHP), the resident will:
• Practice in both inpatient and ambulatory settings
• Participate in academic and preceptor programs of the UW School of Pharmacy
• Complete a longitudinal project suitable for publication
• Experience rotations tailored to the resident’s interests and needs while also meeting ASHP standards

FRINGE BENEFITS

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: June/July
Estimated Stipend: $47,500

SPECIAL FEATURES
The PGY2 Pharmacy Informatics Residency at the University of Wisconsin Hospitals and Clinics is designed to develop experts in emerging technologies and health information systems with an emphasis on clinical applications and impact on patient care. The program will prepare the pharmacist to act independently as a leader and pioneer in pharmacy informatics. Additionally, the program will develop motivated leaders within the pharmacy profession that can collaborate effectively with all members of the patient care team.

With this expertise, the resident will be well-positioned to accept an advanced position as an informatics pharmacist or become a member of the pharmacy leadership team supporting information technology or member of the pharmacy leadership team in an academic medical center or specialty pharmacy.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 4
Starting Date: July 1
Estimated Stipend: $47,500

SPECIAL FEATURES
The PGY2 Solid Organ Transplant Residency program provides the resident with a broad educational experience in solid organ transplantation according to ASHP PGY2 residency training standards. The primary focus of the residency is abdominal transplant (kidney, liver, pancreas) of adult patients. Cardiothoracic (heart and lung) transplant experience is also included.

Comprehensive clinical knowledge and medication use management skills in the care of transplant recipients will be gained via practice as a member of the inpatient surgical and medical transplant teams, participating in multidisciplinary rounds, providing patient education, and longitudinal practice in the ambulatory transplant clinics. Teaching activities include a didactic lecture at the UW School of Pharmacy and clerkship preceptorship of pharmacy students and PGY1 residents. The resident will complete a research project suitable for publication. Elective rotations are tailored to meet the needs and interest of the resident.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Onsite interview, PharmD degree, prior PGY1 pharmacy residency completion, and eligibility for Wisconsin licensure.

TRAINING SITE
UWHC performs nearly 500 solid organ transplants per year and is consistently ranked among the top 10 most active transplant centers in the country. Transplant outcomes are consistently cited among the best in the nation. The UW Organ and Tissue Donation service is recognized by
PGY2

the US Department of Health and Human Services as an organ procure-
ment best practice site. More information about transplant services at UW
Health can be found on the website https://www.uwhealth.org/transplant/
about-us/10598.

University of Wisconsin Hospital and Clinics (UWHC) is a 648 bed tertiary
care, level 1 trauma, academic medical center with extensive research,
clinical, ambulatory care, home care, HMO and referral services augment-
ing its advanced inpatient clinical services. With fully implemented CPOE,
the UWHC has completely electronic medical records which allows for
extensive clinical research opportunities. The department is extensively
automated with robotic drug distribution technology to support inpatient
and outpatient dispensing functions and with a totally integrated informa-
tion system and network. The pharmacy staffing model is considered an

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: 1
Application Deadline: January 2
Starting Date: July 9
Estimated Stipend: $47,500

SPECIAL FEATURES
The PGY2 residency in specialty pharmacy at UW Health will develop
experts in the business, operational, and clinical components of health
system specialty pharmacies. Residents completing this program will
have the knowledge and resources to oversee and lead all aspects of
a health system specialty pharmacy, including complex disease state
management, business strategies, specialty pharmacy marketplace
analyses, pharmacy operations, and budgeting/finance. Additionally,
as a specialty pharmacy that is dually-accredited, the resident will be
required to understand and oversee compliance with specialty pharmacy
accreditation standards.

With this expertise, the resident will be well-positioned to accept a
position as a member of the specialty pharmacy leadership team at an
academic medical center or specialty pharmacy.

FRINGE BENEFITS
Health insurance (health/vision/dental), office space with dual monitors,
personal technology (laptop or iPad), 3 major holidays, 3 minor holidays,
10 days paid time off, funding for professional meetings, travel days
to visit other health systems, access to the University of Wisconsin’s
recreational, educational, and cultural facilities. Unlimited access to UW
School of Medicine library, Lexicomp, and Micromedex.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Completion of a PharmD degree from an accredited school of pharmacy,
prior completion of a PGY1 residency, eligibility for Wisconsin licensure,
and an on-site interview are all required for eligibility.

TRAINING SITE FEATURES
Ranked as a top 5 hospital for quality among 333 ACOs. Named the top
hospital in Wisconsin by U.S News & World Report magazine in 2012-
2016, and 2017. Ranked among the top 10 academic health centers
nationwide in a University Health System Consortium benchmarking
study of safety, mortality, clinical effectiveness and equity in delivery
care. Named among the “100 Best Companies” in the nation by
Working Mother magazine for nine consecutive years (2008-2016).
One of 19 BOLD organizations (Best Organizations for Leadership
Development). One of the top 100 Great Hospitals in America (Becker’s
Hospital Review). Home of the Carbone Cancer Center, one of 69
federally designated centers for cancer treatment and research. One
of the nation’s largest organ transplant programs, with outcomes
consistently cited among the best in the nation and recognized by the
US Department of Health and Human Services as an organ procurement
best practice site. Certified as a Comprehensive Stroke Center by the
Joint Commission and the American Heart Association/American Stroke
Association. The department manages 15 retail pharmacies, a home
care company, hospital and long-term care consulting services, full PBM
managed care services, the nation’s leading academic medical center
specialty pharmacy, a telepharmacy mail order service, and a hospice
facility.

RESIDENCY PROGRAM
Duration: 12 months
Number of Positions: varies
Application Deadline: See ASHP Residency Website
Starting Date: Beginning of pay period end of June/ early July
Estimated Stipend: See ASHP Residency Website

SPECIAL FEATURES
This residency provides trainees with opportunities to function
independently as ambulatory care practitioners. Clinic experiences
include primary care, anticoagulation, geriatrics, diabetes, tobacco
cessation, and many other specialty areas. Residents have a scope of
practice with authority to order medications and laboratory tests. This
residency is affiliated with the University of Wisconsin – Madison School
of Pharmacy. Residents who successfully complete this residency should
possess competencies that qualify them for ambulatory care clinical
pharmacist and/or faculty positions.

FRINGE BENEFITS
Health insurance, 13 vacation days, 13 sick days and 10 holidays/year
plus administrative leave to attend meetings

SPECIAL REQUIREMENTS
Graduate of an accredited school of pharmacy. May be licensed in any
state. US Citizen or permanent resident of the U.S. Applicants must have completed an accredited PGY1 pharmacy practice residency. See ASHP Residency Website for details.

**TRAINING SITE FEATURES**

The multi-facility Pharmacy Department is an innovative leader within VHA in the development of progressive operational, clinical, and educational services. In addition to integrating enhanced automation, the pharmacy team (which consists of over 130 team members) was the first VHA facility to create a residency program in direct medication therapy management – and is one of the most progressive VHA pharmacy services concerning the application of evidence-based medication use guidelines and pharmacoeconomic application and research practices.

**SPECIAL FEATURES**

The William S. Middleton Memorial Veterans hospital has a rich history of advanced pharmacy practice and has offered pharmacy residency programs for more than 30 years. This Psychiatric Specialty Residency has been accredited by the American Society of Health-System Pharmacists since 2008. Multiple psychiatric clinical pharmacists, psychiatrists, psychologists and social workers serve as preceptors at this site. These excellent interdisciplinary preceptors are a program strength. Residents encounter a variety of experiences to prepare them for clinical practice as psychiatric pharmacists. Residents will develop clinical skills in the areas of Integrated Care (IC), Outpatient Mental Health, Inpatient Mental Health, and Addictions while treating the veteran population. Residents provide patient care as members of interdisciplinary teams. They assume responsibility for the care of patients and take an active, direct role in patient care. In addition, they write progress notes for patients they assess and are granted prescribing authority under protocol. Residents also have privileges to order laboratory and other diagnostic tests, consult other services when indicated, and develop therapeutic and monitoring plans for patient follow-up. Additionally, residents participate in an interdisciplinary training seminar with psychiatry residents. PGY1 pharmacy residents, psychology interns and social work interns where they are exposed to a variety of didactic clinical topics, as well as motivational interviewing skills. This residency is affiliated with the University of Wisconsin – Madison School of Pharmacy, where residents also serve as clinical instructors in the Pharmacotherapy Lab. Residents have the opportunity to participate in a teaching certificate program offered through the school.

**FRINGE BENEFITS**

Health insurance, 13 vacation days, 13 sick days and 10 holidays/year plus administrative leave to attend meetings

**SPECIAL REQUIREMENTS**

Graduate of an accredited school of pharmacy. May be licensed in any state. US Citizen or permanent resident of the US. Applicants must have completed an accredited PGY1 pharmacy practice residency or have equivalent experience. Both internal (completed PGY1 at this site) and external candidates are eligible. See ASHP Residency Website for details.

**TRAINING SITE FEATURES**

The VA Health Care system is nationally recognized as a leader in totally integrated computerized patient clinical records. The medical center is a tertiary care teaching hospital affiliated with the University of Wisconsin Schools of Pharmacy and Medicine. The hospital is a general medical and surgery facility with all major sub specialties of medicine. The proximity of hospital to the UW Clinical Science Center allows the Resident to attend conferences at both hospitals.

**RESIDENCY PROGRAM**

Duration: 24 months (12 months PGY1, 12 months PGY2)
Number of Positions: 1 in PGY1 year and 1 in PGY2 year
Application Deadline: January 5
Starting Date: See Program Director
Estimated Stipend: PGY1 $47,840; PGY2 $58,240

**SPECIAL FEATURES**

This 2-year program provides residents with a solid clinical pharmacy foundation followed by specialized knowledge and skills necessary to practice in a wide variety of roles that utilize pharmacy informatics within an integrated health care organization. During the first year, the resident completes the PGY1 Pharmacy – Aurora Health Care Metro Inc program (see listing), which includes core experiences in direct patient care, drug policy, and administration and elective experiences based on interests and needs. During the PGY2 year, the resident is a member of the pharmacy information systems team and gains experience in all aspects of pharmacy informatics and automation for Aurora Health Care. Learning experiences include Epic certification, informatics integration, inpatient pharmacy informatics, pharmacy automation, medication safety, ambulatory pharmacy informatics, clinical decision support, business intelligence, pharmacy operations, oncology informatics, informatics training, data management, and professional development. Experiences in both years are customized to meet the resident’s goals and interests.

**FRINGE BENEFITS**

Full-time employee benefits including medical/dental insurance, paid time off, and travel support for educational meetings.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**

Graduate of an accredited school of pharmacy, eligibility for Wisconsin licensure, and US Citizen or permanent resident of the US. Application materials include a letter of intent, curriculum vitae (CV), transcripts,

RESIDENCY PROGRAM
Duration: 24 mo/residency with advanced degree opportunity
Number of Positions: 2
Application Deadline: January 2
Starting Date: July 2018
Estimated Stipend: $49,920

SPECIAL FEATURES
This residency program prepares residents to assume high-level managerial, supervisory, and leadership responsibilities. During the PGY1 year, the resident will fulfill PGY1 pharmacy residency program requirements while participating in additional administrative responsibilities. During the PGY2 year the resident will complete rotations and learning experiences that focus on safe and effective medication utilization, operations and clinical management in both inpatient and ambulatory settings, transitions of care, quality assurance, data analytics, management of human and financial resources, and use of technology. Projects and longitudinal activities during both years will relate to residents’ interests in pharmacy leadership and administration. Residents will complete a 2 year Master’s of Healthcare Administration degree in partnership with University of Wisconsin – Milwaukee.

FRINGE BENEFITS
Two weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

SPECIAL REQUIREMENTS FOR ACCEPTANCE
Participation in PhORCAS (Pharmacy Online Residency Centralized Application) plus required supplemental materials. Please see the residency website or contact the program for additional details.

TRAINING SITE FEATURES
Froedtert Hospital is a 536-bed academic medical center and a leading referral resource for advanced medical care. Froedtert Hospital also operates the region’s only adult Level I Trauma Center. The primary adult teaching affiliate of the Medical College of Wisconsin, Froedtert Hospital is a major training facility for more than 1,000 medical, nursing and health technical students annually. It is also a respected research center, participating in some 2,000 research studies, including clinical trials, every year. Froedtert Hospital is located on the Milwaukee Regional Medical Center campus. Campus partners are: BloodCenter of Wisconsin, Children’s Hospital of Wisconsin, Curative Care Network, the Medical College of Wisconsin, and the Milwaukee County Behavioral Health Division. Froedtert Hospital is part of the Froedtert & MCW health care network, which also includes Community Memorial Hospital, Menomonee Falls; St. Joseph’s Hospital, West Bend; and more than 25 primary and specialty care health centers and clinics. All physicians who practice at Froedtert Hospital are Medical College of Wisconsin faculty who are dedicated to patient care, research and teaching. Our physicians are consistently honored by recognition in Best Doctors in America®, and other local and national publications. Patients benefit from a full range of medical and surgical specialties, ranging from internal medicine to neurosurgery. At Froedtert & MCW more than 37 different medical specialties work together as multi-disciplinary teams treating everything from the routine to the most difficult cases.

**RESIDENCY PROGRAM**  
Duration: 24 Month Combined PGY1/2 Residency with MS degree  
Number of Positions: 4  
Application Deadline: January 2  
Starting Date: June  
Estimated Stipend: $47,500 (year 1) and $47,500 (year 2)

**SPECIAL FEATURES**  
The combined Master’s degree and residency in Health System Pharmacy Administration at UW Health is designed to provide the resident with a solid background in academics and the administration of exemplary pharmacy services across an integrated health system. The primary objective of the program is to develop health system pharmacy administrators who are trained and prepared to immediately assume manager and assistant director level administrative leadership positions within a large health system (e.g., oversight of pharmacy operations, clinical programs, medication safety, new business development, supply chain), and one day serve as a Director of Pharmacy or Chief Pharmacy Officer in a leading health care organization. Resident’s activities are varied in scope, depending on each individual’s background and areas of interest.

**FRINGE BENEFITS**  
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**  
Submission of application materials via PhORCAS, an onsite interview, PharmD degree, and eligibility for Wisconsin licensure. Please see www.uwhealth.org/pharmacy for details.

**TRAINING SITE FEATURES**  
UW Health is the integrated health system of the University of Wisconsin-Madison, serving more than 600,000 patients annually in the Upper Midwest and beyond, with approximately 1,500 physicians and 16,500 staff at six hospitals and 80 outpatient sites. University Hospital is a 505-bed tertiary care, level 1 trauma, academic medical center with extensive research, clinic, ambulatory care, home care, HMO and referral services augmenting its advanced inpatient clinical services. Additionally, UW Health houses the American Family Children’s Hospital, an 87 bed level 1 pediatric trauma center; one of the nation’s largest solid organ transplant programs; and the Carbone Cancer Center, one of 41 National Cancer Institute-designated comprehensive centers in the country. With fully implemented CPOE, UW Health has completely electronic medical records, which allows for extensive clinical research opportunities. The department is extensively automated with robotic drug distribution technology and a Pharmacy Services Building (opened in 2017) to support inpatient and outpatient dispensing functions and with a totally integrated information system and network. The pharmacy staffing model is considered an integrated model, in which the staffing pharmacist is accountable for all aspects in the provision of patient care. Beginning with patient medication interviews and medication reconciliation, to discharge medication reconciliation and medication consultation, active pharmacist involvement is a key component to UW Health providing quality patient care. Overall, pharmacy practice at UW Health is a fast-paced, intense, and challenging environment, and is well suited for motivated and high-performing residents who desire the highest level of instruction.

**RESIDENCY PROGRAM**  
Duration: 24 months  
Number of Positions: 1  
Application Deadline: January 2  
Starting Date: June/July  
Estimated Stipend: $47,500 per year

**SPECIAL FEATURES**  
The two year Residency in Medication Systems and Operations at the University of Wisconsin Hospital and Clinics is designed to provide the resident with a comprehensive understanding of the medication systems and operations that occur within a hybrid drug distribution model. The primary objective of the program is to develop pharmacy personnel with the ability and expertise to effectively manage and oversee the distributive, technical, and clinical aspects of the supply chain and medication use system.

**PGY-1 and PGY-2 combined residency in Medication Systems and Operations** offers extensive training to establish advanced and innovative medication use systems in clinical, operational and technology settings. Residents learn and apply the fundamentals of hands-on project management (i.e., initiate, plan, execute, and close on team deliverables) for projects of varying complexity and scale. Graduates of the residency obtain leadership positions in hospital pharmacy requiring skills in project management, productivity and systematization.

**FRINGE BENEFITS**  
Health insurance (health/vision/dental), office space with dual monitors, personal technology (laptop or iPad), 3 major holidays, 3 minor holidays, 10 days paid time off, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreational, educational, and cultural facilities. Unlimited access to UW School of Medicine library, Lexicomp, and Micromedex.

**SPECIAL REQUIREMENTS FOR ACCEPTANCE**  
Completion of a PharmD degree from an accredited school of pharmacy, eligibility for Wisconsin licensure, and an on-site interview, are all required.
in order to be considered for eligibility.

TRAINING SITE FEATURES
University of Wisconsin Hospital and Clinics (UWHC) is a 566 bed tertiary care, level 1 trauma, academic medical center with extensive research, clinic, ambulatory care, home care, HMO and referral services augmenting its advanced inpatient clinical services. With fully implemented CPOE, the UWHC has completely electronic medical records, which allows for extensive clinical research opportunities.

The department is extensively automated with robotic drug distribution technology to support inpatient and outpatient dispensing functions and with a totally integrated information system and network.
