<tr>
<td>Commercial Payers</td>
<td>WPQC-certified pharmacist directly affiliated with a WPQC-accredited dispensing pharmacy; contract pharmacists permitted</td>
</tr>
<tr>
<td>Wisconsin Medicaid</td>
<td>WPQC-certified pharmacist directly or indirectly affiliated with a WPQC-accredited Medicaid provider pharmacy; location determined by place of service codes in Forward Health policy; payment provided to dispensing pharmacy; contract pharmacists permitted</td>
</tr>
</tbody>
</table>

**Directly affiliated:** pharmacist whose salary is funded directly by the WPQC-accredited dispensing pharmacy for either dispensing-related activities or service-based activities

**Examples:**

- Pharmacist who dispenses prescriptions for the majority of his time, but also spends some of his time in a clinic providing CMR/A’s. His salary is fully covered by the dispensing pharmacy operating budget (retail pharmacy operations).
- Pharmacist who has established a MTM consulting business and holds contracts with several dispensing pharmacies to provide CMR/A’s for their patients. She is a part time employee of the dispensing pharmacy.
- Pharmacist whose salary is paid for by both the health system and the dispensing pharmacy. She provides WPQC services during the portion of the time her wage is paid for by the dispensing pharmacy.

**Indirectly affiliated:** pharmacist who does not receive payment directly from the WPQC-accredited dispensing pharmacy for service-based activities.

**Examples:**

- Pharmacist who works in a clinic 100% of his time; none of his salary is covered by the dispensing pharmacy operations budget. He submits claims through the dispensing pharmacy at his health system.
- Pharmacist whose salary is paid for by both the health system and the dispensing pharmacy. She provides WPQC services during the portion of the time her wage is paid for by the health system outside of the dispensing pharmacy operating budget.
- Pharmacy faculty member who works in a clinic at the adjacent health system. None of her salary is covered by the pharmacy operations budget. She submits claims through the health system’s dispensing pharmacy.
