This \underline{asthma} controller interchange table is for patients age 12 and older only!

To determine which medications/doses can be interchanged with the originally prescribed medication, locate the originally prescribed product/dose in Column 1 and follow the row across to locate interchangeable products/strength/directions.

If the medication/dose is not listed on this table, contact the prescriber to discuss appropriate interchange options.

If the medication/dose	is not list	ed on th	is table, o	contact th	e prescrib	er to disci	uss approp	riate inte	rchange of	otions.					App	roved Inte	rchanges
